

CANDIDATE ASSESSMENT REPORT

POSITION: Senior Java Backend

NAME: Tran Van Chi

GENDER: male

DOB: 10/ 12/ 1993

Expected Salary : 1,000 USD(Gross)

Start Working Date: Nego

I. WORKING EXPERIENCES IN DETAILS

PRACTICAL EXPERIENCE	
Description:	
<p>4 years experience in working with Java.</p> <ul style="list-style-type: none"> - 2015 – 2017: Công ty THHH Đông Dương IIST - 2017 – 2018: Công ty cổ phần GEM - 2018 – 2019: Fa-Robotcom <p>Experience with database management system: SQL server, Oracle.</p>	
HARDWARE AND PLATFORMS	Windows 7, Linux
PROGRAMMING LANGUAGES	Java, HTML+CSS, JavaScript,.Net
BACKEND EXPERIENCE	Java Core, Webservices, Struts1,2; ZK, Primefaces 6.1, Hibernate, Spring Boot
FRONTEND EXPERIENCE	Html, Css, bootstrap, JQuery, AngularJs, Angular 7
METHODLOGICS & CASE TOOLS	<ul style="list-style-type: none"> - VSC with SVN and Git. - Design with UML (StarUML, Visual Paradigm). - Client / Server with 3-tier architecture (MVC). - IntelliJ
SOFT SKILL	<ul style="list-style-type: none"> - Presentation - Problem solving

1. Project	CATS			
Position (s)	Java Developer, Solutions			
Responsibility	- System Admin - Company/Division Admin - System Configuration - Report			
Customer	Japan			
Duration	02/2017–7/2019			
Project descriptions				
Team size	<u>Total</u>	: 10 persons		
	SM	: 1 person	Developer	: 4 persons
	BA	: 1 persons	Mobile	: 3person
Project scope	Requirement, Analysis & Design, Coding, Test, Deploy			
Development Environment	RUNTIME ENVIRONMENT		DEVELOPMENT ENVIROMENT	
	<u>Hardware:</u> Server Machine Client Machine		Linux NetBean	
	<u>Software:</u> Linux Server.			
Database	▪ Oracle			
Programming Language	Java			
Engineering	Webservices, Spring			
Tool	NetBean, Mobile device			

	Client Machine <u>Software:</u> Linux Server.	
Database	▪ Oracle	
Programming Language	Java	
Engineering	Webservices	
Tool	NetBean, Mobile device	

3. Project	Establishment of the Control System			
Position (s)	Java Developer			
Responsibility	<div>- Build the site according to the requirements of Partner Management, Policy Management.</div> <div>- Added importfile, export files from interface to insert into DataBase.</div> <div>- Drawing a Jasper Report</div> <div>- Build the process of sending mail, receiving mail.</div>			
Customer	Viettel			
Duration	05/2017–08/2017			
Project descriptions	Build a website for receipts management, personal and travel expense management			
Team size	<u>Total</u>	: 4 persons		
	SM	: 1 person	Developer	: 1 persons (3 Web developers)
	BA	: 1persons	Designer	: 1person
Project scope	Requirement, Analysis & Design, Coding, Test, Deploy			

	RUNTIME ENVIRONMENT	DEVELOPMENT ENVIROMENT
Development Environment	<u>Hardware:</u> Server Machine Client Machine <u>Software:</u> Linux Server.	Linux NetBean
Database	▪ Oracle	
Programming Language	Java	
Engineering	- The Java ZK Framework that uses hibernate	
Tool	NetBean, Mobile device	

4. Project	Viettel_CSP			
Position (s)	Java Developer			
Responsibility	Develop website with AngularJS, build hybrid mobile app, work with responsive layout Write API for web clients and mobile apps Work with Amazon Web Service architecture Research technical solutions for team			
Customer	Viettel			
Duration	05/2017–07/2017			
Project descriptions	Build a website for receipts management, personal and travel expense management			
Team size	<u>Total</u> SM BA	: 9 persons : 1 person : 2 persons	Developer Designer	: 5 persons (3 Web developers) : 1person

Project scope	Requirement, Analysis & Design, Coding, Test, Deploy	
Development Environment	RUNTIME ENVIRONMENT	DEVELOPMENT ENVIROMENT
	<u>Hardware:</u> Server Machine Client Machine <u>Software:</u> Linux Server.	Linux NetBean
Database	▪ Oracle	
Programming Language	Java	
Engineering	build responsive mobile web, hybrid mobile app, Amazon Web Service	
Tool	NetBean, Mobile device	

5. Project	Building Control Systems
Position (s)	Java Developer
Responsibility	Develop website with ZK
Customer	Viettel Telecom
Duration	01/2017–04/2017
Project descriptions	<ul style="list-style-type: none"> - Build up sites according to the requirements of Partner Management, Policy Management. - Added importfile functions, export files from interface to insert into DataBase. - Drawing a Jasper Report - Build the process of sending mail, receiving mail.

Team size	<u>Total</u>	: 4 persons		
	PO	: 1 person	Developer	: 2 persons
	BA	: 0 person	Designer	: 1person
Project scope	Requirement, Analysis & Design, Coding, Test, Deploy			
Programming Language	Java			
Tool	Netbean			

6. Project	Processing Process Data3G, DataPlus, Tool Synchronization			
Position (s)	Java Developer			
Responsibility	Develop website with Java			
Customer	Viettel Telecom			
Duration	07/2016–12/2016			
Project descriptions	<ul style="list-style-type: none"> - Analyze information, build business process - Programming the assigned modules - System deployment - Upgrade and maintain the system of Data services according to customer requirements. - Maintain functions such as Lookup Code Personals, Lookup vas, .. - Build the process for the cutting tool tool. - Redo the WebService for the Plus Subscriber function when renewing. 			
Team size	<u>Total</u>	: 12 persons		
	PM	: 1person	Developer	: 9 persons
	Comtor	: 1 person	Designer	: 1person

Project scope	Requirement, Analysis & Design, Coding, Test, Deploy
Database	▪ Oracle
Programming Language	Java
Tool	NetBean

7. Project	WebConfig, WebConfigVasCTV, Data3G,DataPlus,Italk
Position (s)	Java Developer
Responsibility	<ul style="list-style-type: none"> - Analyze information, build business process - Programming the assigned modules - System deployment - Post-deployment user support - Build solutions for testers and testers - Write CheckList and handover sourceCode to the focal point - Build up the table configuration: Confix, Syntax, Product ... to be able to configure process processing in process. - Revise the new requirements: Redo the new update with the sql statement, update each field, modify the fields on the form, update the field, optimization and performance will be faster. Repeat the new add command, delete also with the new command to optimize the system. - After updating, adding, deleting and importing files, ExportFile, then sql showlog on web form.

Customer	Viettel Telecom			
Duration	01/2016–06/2016			
Team size	<u>Total</u>	: 3 persons		
	PM	: 0person	Developer	: 2 persons
	QA	: 1 person	Designer	: 0person
Project scope	Requirement, Analysis & Design, Coding, Test, Deploy			
Database	▪ Oracle			
Programming Language	Java			
Engineering	Use Ionic to build .apk file for Android and .ipa for IOS.			
	Use gmap sdk to draw map with AngularJS.			
Tool	Netbeans			

II. QUALIFICATION IN DETAILS

Education	Department
Institute of Posts and Telecommunications Technology	Computer Science
