## About

---

### Hi, I'm Viet

I'm a senior IOS Developer in mobile development industry with more than 6 years' experience. I have strong IOS skills, so i can apply OOP, functional programming, design pattern to project. I have high technical skills in both hand-coding objective c/swift and ios libraries (Alamofire, AFNetworking, Mansory, etc). I can build difficult layout without using any library. I learn quickly new technologies and I always try to study and update my skills compared to new trend especially in IOS (I had made Flappy Bird in only three days when the first Swift version published). Besides that, I have enthusiasm and responsibility in working. I can work well under pressure. Finally, I adapted Scrum process.

## Education

---

### Military Technical Academy

Ha Noi, Viet Nam

B.S. IN SOFTWARE ENGINEERING

2012 - 2014

## Experience

---

### VPBank

<http://www.vpbank.com.vn/>

<https://vnext.vn/>

2014 - 3/2016

## My start up team

GAME DEVELOPER

- Using C++ to create logic and UI for game
- research technologies to use in project
- Create training slide and documentation about: C++, cocos2dx

2013 - 2014

## Skills

---

### Mobile Development

SWIFT, OBJECTIVE C, C++

### Architecture

MCV, MVVM, MVP, VIPER

### Revision Control

GIT, SVN

### IDE and text editor

VISUAL STUDIO, SUBLIME, XCODE, ITERM

### Operating System

UBUNTU & WINDOWS FAMILY & MACOS

### Training

SWIFT & C++ & OBJECTIVE C & DESIGN PATTERN

*i usually write blog about tech and share  
my knowledge*

### Others

WORD, EXCEL, POWERPOINT, VISIO, UML TOOLS

## Languages

---

### Vietnamese

NATIVE SPEAKER

### English

BASIC

## Interests

---

### Musics

COUNTRY, JAZZ, BLUE, ROCK & ROLL, BOLERO, ETC... EVERY SONGS I CAN HEAR AND FEEL GOOD!

**Sport**

BASKETBALL, BILLBOARD

**Gaming**

SHOOTING, ADVENTURE, STRATEGY

**Coding**

SWIFT
