Dear company

I known that you are looking for a software engineer with ability to develop applications on mobile, especially for iOS Senior Development. Please take a look at my below resume.

I have graduated with a **SOFTWARE ENGINEERING IN INFORMATION TECHNOLOGY** IN 2014 from **Posts and Telecommunications Institute of Technology(PTIT)**. So I believe in my ability of quick learning, exploring new technologies and staying long enough with troubles in work. I can read, write and communicate in English well.

BESIDES, I HAVE GOT CERTIFICATES IN 2015 and 2018:
IELTS 6.0 and TOEIC 960.

Although I'm a disable person but I want to prove that I can do everything around my daily routine and I want to help and encourage another that ***nothing is impossible.***

Since 2012, I have worked as a Mobile developer both Android and iOS with a lot of both outsourcing projects and Product Projects
My technical experience includes fluency in programming languages Swifts, Objective C, Java.

I also have experience with principal design application like Architectural Design Principal, SOLID (object-oriented design), and design pattern, CI/CD on Git, I am looking forward to hearing you.

Sincerely!
Phan Thanh Tung

Education Background

Period	Education
2010 - 2014	<p>Post and Telecommunications Institutes of Technology (PTIT)</p> <p>Major: Software Engineering</p> <p>Graduation thesis: Content base recommend system from online Vietnamese news.</p> <p>Thesis description: I researched and make a system (by Java) can help and recommend for users some news from Internet which is related for their hobbies and the history they accessed before. This is very helpful for users because the Information is very big, so making a choice a good new and recommend for users is very necessary because it reduce the time to search the appropriate new fore each user.</p> <p>Instructor: PhD. Nguyen Duy Phuong – Master Tran Nhat Quang (Graduate from America)</p> <p>CPA / Level: (7.47 / 10) - Fairly good bachelor of Software Engineering.</p>
2011 - 2012	<p>Techmaster Vietnam – Computer Education.</p> <p>Program: ios developer - android program (by objective C and java language).</p> <p>Certificate: Higher Diploma in Software Engineering.</p>
2013 - 2015	<p>Smartcom Vietnam – Learning English from beginner to master</p> <p>2/2015: I take part in IELTS test (International English language testing system) in British council and I get 6.0/9.0 point in IELTS test. After I graduated from here, I write a program named Smartcom English based on Android operating system to give them without money:</p> <p>https://play.google.com/store/apps/details?id=vn.smartcom.learnenglish</p>

Research Experience

<ul style="list-style-type: none"> Participate in science projects in CDIT <ul style="list-style-type: none"> Project: make a taxi system in Ha Noi center. Tutor: PhD. Nguyen Duy Phuong – Manager of Department of Software Engineering, Post and Telecommunications Institutes of Technology (PTIT)

Working Experience

Period (MM/YY)	Working Experience
2019 – now	<p>Funtap JSC</p> <p>Work as a leader of mobile team with approximately 20 members both Android, iOS and Backend. Also I developed and have a responsibility like an IOS Technical Leader in this Company</p>

2017 – 03/2019	Rikkeisoft JSC Work as a PM and iOS developer at Rikkeisoft Company with a lot of clients come from Japanese.
