PROJECTS**AIVI-2**

(Apr 2020 - Present)

Customer	LGe
Description	Maintain Car's Head Unit Framework
Team size	68
My position	Team member
My responsibilities	<ul style="list-style-type: none"> - Handle Push Message Manager - Analysis and design - Development - Review code - Optimize code - Bug Fixing - Develop test unit
Technologies used	- Android Studio 3.0, Java, Android 5.0, JUnit, Kotlin

Freelance Projects

(Jun 2019 - Present)

Customer	Personal Product
Description	Guide game applications
Team size	2
My position	Team member
My responsibilities	<ul style="list-style-type: none"> - Analysis and design - Development - Optimize code - Bug Fixing
Technologies used	- Android Studio 3.0, Java, Android 5.0, JUnit, Kotlin

WindRiver

(2017 - Apr 2020)

Customer	WindRiver
Description	Maintain Car's Head Unit System
Team size	30
My position	Team leader
My responsibilities	<ul style="list-style-type: none"> - Handle these applications: Settings, HVAC, TripComputer - Analysis and design - Development - Review code - Optimize code - Bug Fixing - Develop test scripts - Implement MOST API and MOST Simulation
Technologies used	- Android Studio 1.4, Java, Android 5.0, JUnit, Adb command

Pico Projects(e-commerce, Barcode Scanner)

(2016 - 2017)

Customer	Company product
Description	<ul style="list-style-type: none"> - E-commerce application show all products of Pico, provide the news and allow user find the branches, order, etc. - Barcode Scanner application is internal application, allows the salesman check the products's information through their bar code.
Team size	10
My position	Team leader
My responsibilities	<ul style="list-style-type: none"> - Development - Optimize code - Bug Fixing
Technologies used	<ul style="list-style-type: none"> - Image loader, custom view, activity life cycle, Google services, Firebase, REST Api, Gson, Json, etc.

VGG SDK

(2014 - 2016)

Customer	Company product
Description	This library allows integrate into Android apps, Android games to login, payment, etc. and control the user's account
Team size	10
My position	Team member
My responsibilities	<ul style="list-style-type: none"> - Development - Optimize code - Bug Fixing
Technologies used	<ul style="list-style-type: none"> - Image loader, File io, custom view, activity life cycle, Android JNI, FaceBook SDK, Google services, REST Api, Gson, Json, Game engines, etc.

Education and Professional Development

ACADEMIC EDUCATION

Oct 2009 - May 2014

**POST AND TELECOMMUNICATIONS INSTITUTE
OF TECHNOLOGY (PTIT)**

Major: Information Technology

GPA: 3.0/4

SKILLS

- Android
 - Up-to-date experience with latest Android technics: MVP, MVVM architecture, Volley, Retrofit, Gson, JSON, etc.
 - Excellent in programming and debugging skills
 - Have experience with analyse memory leak, improve performance

- Java, Kotlin, Python, C++
 - Most of time working on Android Java programming language within more than 5 years experience.
 - 1+ year working on Kotlin programming language
 - Experience with C++ programming, Python, Android JNI, JUnit.
 - Have experience with OOP, data structure and algorithm
- Window, Microsoft Office, Ubuntu
 - Most time working on Window environment and more than 2 years on Ubuntu
 - Master with Microsoft office (Word, Excel, PowerPoint)
- Soft skills
 - Able to work both on team and independently, work in multi-culture environment with high pressure
 - Able to quickly learn new technologies to work for long hours without losing patience and enthusiasm
 - Good at problem solving skills and logical thinking
- Orientation
 - Android developer
 - Working with cross platform: Flutter, React Native, etc.
 - Java developer
