PROFESSIONAL EXPERIENCE:

Project Name: Emergency Center, Hanoi Smart city Project

Time: 02/2018 - Present

Position: Solution Architect

Company: Viettel Telecom (Hanoi, Vietnam)

Project Description:

- Work and Research the model of Emergency Center (emergency number 911 or 112) with large partners such as Frequentis, Hexagon, Winitel
- Research the current situation of Hanoi city and propose business solutions for Hanoi Emergency Center
- Research of Integrated Operation Center (IOC).

Project Name: Visualize data of revenue and subscribers by using Qlik Sense

Time: 06/2017 - 01/2018

Position: Senior Engineer/Project Manager/Chief of Software Department

Company: Viettel Peru (Lima, Peru)

Project Description: Qlik Sense allows visualizing the data which helps leaders to make better decisions. My main tasks were:

- Modeled consumption data, customers balance, history of registering with base station and collect them to database by using Oracle database.
- Program procedures to process around 100M records every day
- Use technologies: Java (core), Oracle and Qlik.

Project Name: Ticket Management for Bitel

Time: 01/2017 - 12/2017

Position: Project Manager, Chief of software department

Company: Viettel Peru in Lima, Peru

Project Description: Ticket Management is for all tellers who are working in Bitel Shop. It allows customers to get the tickets and wait for calling from tellers. This solution also allows operator staff to change advertising video on the TV in all shops and receive reports. My main tasks were:

- Coordinate with Vietnam team including investment and finance department to deliver 67 kiosks from Vietnam to Peru and then to 30 provinces of Lima.
- Build plan for system deployment, design the stores for putting the Kiosks, delivering plan and maintaining.

Project Name: Sale Management

Time: 07/2011 → 12/2016

Position: Senior Developer/BA, Project Management/Chief of software department (size of team: around 4)

Company: Software center Vietnam, (Bitel) Viettel Peru - Lima

Project Description:

- Be in charge of maintaining project
- Upgrade new businesses for the system by customer's requirements.
- Integrate the payment methods with web services of some banks like BBVA, BCP in Peru.
- Integrate system with Visanet & Mastercard.
- Use Java Core, Struts2, Jxls to update the system, make the complex excel reports.
- Develop system (coding, bug fixed, deployment)
- Create SRS for the system.
- Use technologies: Java (Struts 2, Hibernate 3, Webservices), Oracle, Javascript (Dojo, jQuery), SVN

Project Name: Profile management

Time: 05/2010 - 06/2011

Position: Developer/BA and Project Manager (size of team: around 3)

Company: Viettel Software Center (Hanoi)

Project Description: This is a subsystem of BCCS (Billing Customer Care System) for the telecom company. My main tasks were:

- Customize functions and modules base on the requirements from other business departments
- Use java (core, struts2) & oracle to project the profile of 60M customers
- Develop system (coding, bug fixed, unit test)
- Use technologies: Java, Jsp, Javascript, Oracle and SVN

AWARDS:

- Good Staff 2013, 2015, 2017
- Certification of creative staff in 2014
- Two initiatives were recognized 2015, 2016

INTERESTS:

Coding, Planning, Read Books, Travelling, Becoming a Youtuber.
