# DAO VAN KHUONG

software developer

## PERSONAL PROFILE

My fullname is Dao Van Khuong. I come from Hanoi, Vietnam. I have been working as a software developer for more than 5 years.

Java is my major programming language. In 2014, I became an "**Oracle Certified Professional Java SE6 Programmer**"

For a long time, I worked with Java and its popular frameworks: **PrimeFaces, Jersey, Hibernate, Springframework (Springboot as well)**

Beside Java and its ecosystem, I also work with frontend stuffs: **ReactJS, React Native, Native Android Development**

## WORK EXPERIENCE

**I. Frontend Developer at Vietnam Prosperity Bank** (2017 - Present)

**What I do:**

- Work with Project Owner and Designer to finalize the designs for User App and Administration App
- Develop frontend side of both User App and Admin App, integrate with backend API as well
- Apply changes to the projects to improve performance and UI

**What I learn:**

- Learn new things about banking sector and some products of the bank
- Learn Python (actually Django) to build the Blog module for the User App mentioned above

**Technologies used in the project:**

- ReactJS, Django, Springboot, MySQL

**II. Backend Developer at FPTSoftware Co.** (2016 - 2017)

**What I do:**

- Develop API for the frontend side, propose improments for the backend side
- Daily meeting with client to discuss business changes or new features
- Teach other guys in the department Android development

**What I learn:**

- Learn to conduct a meeting with oversea client via Skype
- Learn to code and teach others to code

**Technologies used in the project:**

- AngularJS, Jersey, MongoDB, iText

**III. Software Developer at Viettel Software Center** (2014 - 2016)

**What I do:**

- Develop features assigned by the leader (Both frontend and backend side)
- Do weekly code-review with team
- Propose changes to improve the project

**What I learn:**

- Learn the big database schema of a big company
- Learn the Spring framework and Primefaces framework
