

# VIET ANH VU

Software Engineer

☎ 000000000 ✉ anh.vu.sky.tb@gmail.com 📍 Ha Noi - Viet Nam

## SUMMARY

---

- 3 years experiences with 1 years of backend developer and 1.5 years of experience as a fullstack developer with knowledge of Object-Oriented Analysis, Data Structure, Design Pattern, UI/UX.
- Good spirit of learning, good at solving logical issues, handling interface, user experience and performance for web applications.
- Learning new languages and technologies are what I am passionate about (Java, JavaScript, Spring Boot, ReactJs). I not only like helping other and work well with group, but also i like to help other and tend to work well within groups.
- Ability to communicate well, friendly with people and especially I have a good teamwork spirit.

## SKILLS

---

### PROGRAMMING LANGUAGES

- Java
- Javascript
- Typescript

### FRAMEWORKS & PLATFORMS

- Spring Framework
- ReactJS

### DATABASES

- MySQL
- Oracle

### VERSION CONTROL

- Git
- SVN

### IDE

- IntelliJ
- Visual Studio Code

### KNOWLEDGE

- Strong OOP
- Functional Programing
- SQL Database
- Data structure & Algorithm

## WORK EXPERIENCE

---

### HomeCredit VN

Jan 2020 - Present

*Fullstack Developer*

- Responsible for designing and developing fintech application products
- Create REST services using Spring Boot, and evaluate and identify best practices.
- Implement project structure based on microservices architecture (Axon Framework)

- Create web UI and integrate with backend APIs using ReactJS.
  - Utilizing technology stack: Java 11, Spring boot, Oracle, Microservice, Kafka, NextJS.
- 

## **FPT Software HCM**

Oct 2018 - Dec 2019

*Backend Developer*

- Design and develop application platform provides solutions for finding and solving problems for businesses.
- Create REST services using Spring Boot, and evaluate and identify best practices.
- Create web UI and integrate with backend APIs using ReactJs.
- Implementing user stories, performance optimization, development and bug-fixing.
- Design and develop payment features with large amount of data.
- Implementing payment features by using Spring Batch.
- Handle database layer logic by writing Function & Store Procedure.
- Utilizing technology stack: Java 8, Typescript, Spring boot, PostgreSQL, ReactJs v.16.9.

## **EDUCATION**

---

### **PTIT HCM**

June 2016 - Sep 2019

*Post and Telecommunications Institute of Technology Ho Chi Minh*

Bachelor's Degree in Engineering
