

Applicant for:

iOS Developer (Swift) Uptp 2000\$

Dr.JOY

24 February 2020

Phạm Văn Luân

✉ luanpham.vnit@gmail.com

What skills, work projects or achievements make you a strong candidate for this position?

I'm a senior iOS developer with ten-year experience. I have joined in 20+ projects, so I have good knowledge of Objective-C, Swift, Restful API, Realm DB, etc..

I have read about your recruitment and your company and I believe I'm a suitable candidate for your requirement.

I hope to have an interview to show myself.

"Recruiting is the most important job you do." - Steve Jobs

CURRICULUM VITAE

1 PERSONAL INFORMATION

Full name	: Pham Van Luan	
Date of birth	: 1987	
Native city/province	: Thai Binh	
Email address	: luanpham.vnit@gmail.com	
Gender	: Male	
Marital Status	: Married	
Telephone	:	
Mobile phone	: 0888695889	
Highest education level	: University of Civil Engineering, IT, graduated in 2010	
Position	: Iphone Developer	
Job Description	:	
<ul style="list-style-type: none">▪ Provide information and assistance to meet any requests of customer▪ Research, design, develop and test developing software application.▪ Set operational specifications and formulate, analyze software requirements and fix bugs if occurred.▪ Apply principles and techniques of computer science, mathematical analysis		

2 LANGUAGE AND EDUCATION

Language	Application Description	
Vietnamese	Native	
English	<ul style="list-style-type: none"> ▪ Good in writing and reading for making project document such as SRS, Detail Design etc. analyzing customer's requirement, technology material etc. in English. ▪ Have good skills in communication (chat message) in English 	
Education	Department	
University of Civil Engineering	Information Technology	
Certificate	Institutes	Date

3 TECHNICAL/ FUNCTIONAL KNOWLEDGE SKILLS

Skills	Description
Programming skill	Excellent at programming languages, database skills ; good at object oriented skills (very good at code refactoring)
Analysis and design skill	Having software architecture skills and knowledge of design patterns and UML concept;
Software development methodology Knowledge	Good at waterfall/SCRUM

Software development process Knowledge	Good at process and ISO 9000/CMMI level 3.
Engineering skill	Knowledge on OOP theory; Software programming skill (Windows mobile (.NET), J2ME, Objective C, C and C++).

4 SOFT SKILLS

Skills	Description
Communication	<ul style="list-style-type: none"> Have good skill in exchanging information with senior employee, managers, peers and customers by email or in person. The exchanged of information is clear and unambiguous.
Teamwork	<ul style="list-style-type: none"> The ability to co-operate and co-ordinate together with a group of persons a team.
Problem solving and Decision making	<ul style="list-style-type: none"> Analysing information, evaluating results to select the best solutions and solve problems
Planning skills	<ul style="list-style-type: none"> Good organizational and planning skills

5 PRACTICAL EXPERIENCE

Description:

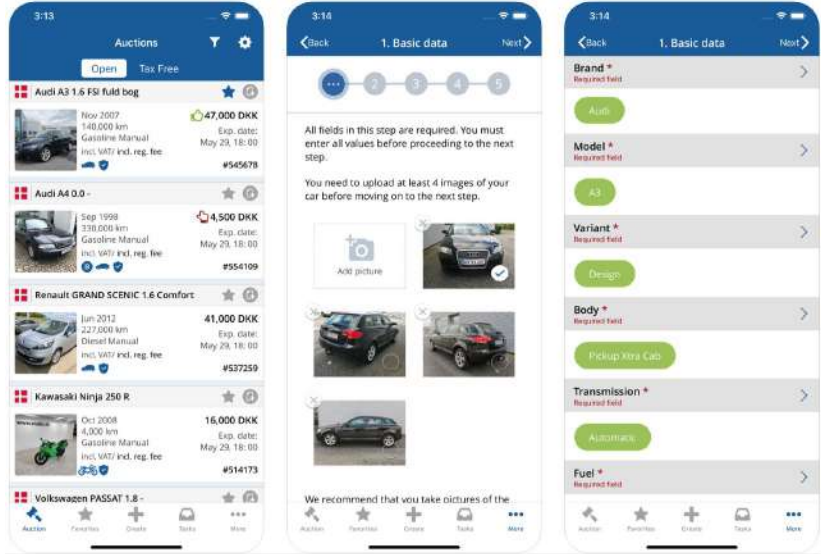

- Design, develop and test.
- Programming with VS Studio 2008, 2010.
- Study iOS SDK and develop iPhone applications.
- Training for other members about developing iPhone apps.
- ~10 years commercial experience with xCode, Object-C, Swift, iOS SDK and Mac OS.
- Strong understanding about networking technologies such as: 3G, Wifi, Bluetooth.

- Many projects are developed and put to sale on iTunes Store.
- Strong experience in Mobile application development.
- Strong experience with database management system such as: Core Data, SQLite.
- Strong experience with web services such as: XML, JSON, HTML, SOAP SERVICE.
- Strong experience in applying ISO 9000, CMMI level 3 in software development process, project management and quality management
-

HARDWARE AND PLATFORMS	<ul style="list-style-type: none"> ▪ Windows, Mac OS, Linux, iOS, Android.
PROGRAMMING LANGUAGES	<ul style="list-style-type: none"> ▪ C/C++, C# , Objective-C, Swift ▪ XML, XSLT, HTML, JavaScript, Ajax
SOFTWARE PACKAGES & TOOLS	<ul style="list-style-type: none"> ▪ MS Office, Adobe (Photoshop), Dreamweaver, .Eclipse, Net Bean, Xcode, QT.
METHODOLOGIES & CASE TOOLS	<ul style="list-style-type: none"> ▪ Object – Oriented Analysis and Design with UML (StarUML, Visual Paradigm etc.) ▪ Client / Server with 3-tier architecture
DATABASE	<ul style="list-style-type: none"> ▪ Advanced with MySQL, SQL, Core Data, Sqlite, Realm

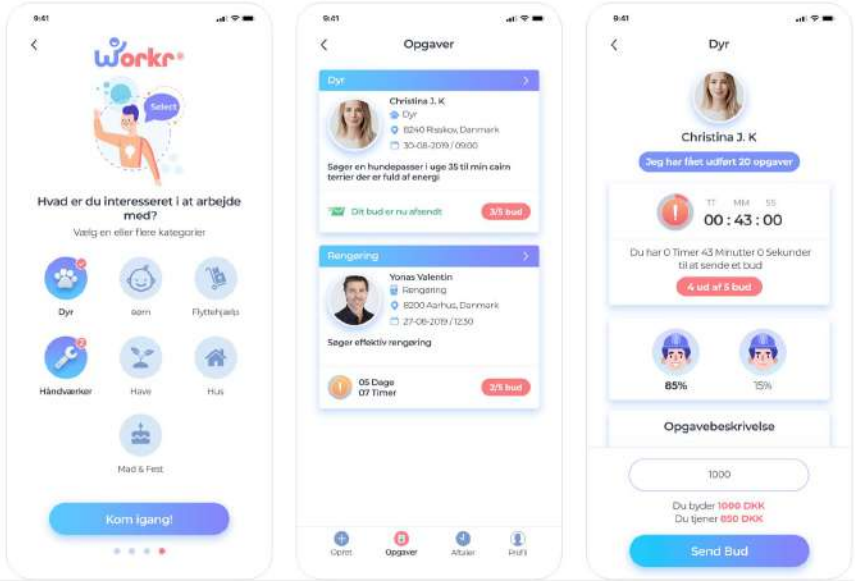

6 TYPICAL PROJECTS

6.24. Project	AUTOProff			
Position (s)	Developer			
Responsibility	Code			
Customer	AUTOProff			
Project descriptions	<p>Automobile industry's digital platform for trading of used cars among professionals.</p> <p>At AUTOProff you will find large selection of cars offered for sale between professional car dealers. The cars are traded on a closed industry auction, and the platform is exclusively for professional car dealers or repairers with industry code.</p> <p>You can use your phone to follow and bid on cars. You can also create cars with implemented search and helping tools and receive a Guarantee Price within 20 minutes.</p> <p>The app has a brand-new engine and design that optimize features and the creation environment. The new engine allows to implement many new features that will be released regularly.</p>
