EDUCATION

Chu Van An Hanoi High School

2007 - 2010

- *Student of the math-gifted class, ChuVanAn high school, Hanoi, Vietnam*

Math

Hanoi University of Science Technology

2010 - 2016

- *Computer Engineering at Hanoi University of Science and Technology or HUST, Hanoi, Vietnam.*

PMA VietNam

3/2019 - 6/2019

- *PMP® Exam Preparation Course*

CAREER OBJECTIVE

Continually improve my skills and knowledge.

ABILITIES

- Good communication skill, be enthusiastic, careful.
- Ability to work in groups.
- Experience in Linux, Mac OS X
- Be familiar with Git, Scrum Agile
- Language: Java, Python, NodeJs, AngularJs, Angular7, VueJs
- Framework: Spring, Express, Laravel

WORK EXPERIENCE

FPT SOFTWARE

09/2014 - 12/2014

- *Internship student - Team lead (5 member)*

Research

- Spring MVC, Hibernate, JSP, Servlet ...

Certificate

- Global Java Developer FPT Software
- Scholarship for best student

ARROW Technologies Co., LTD

09/2015 - 12/2016

- *Developer*

Research

- JSF, Primeface, Struts + Spring +ExtJS, Spring batch
- DBscan, Singleton Pattern, Dependency Injection Pattern, Factory

Pattern

- Elastic search, MongoDB, Postgres
- Nodejs, Angular 1, Angular 2, MEANJS, JQuery, CSS, Sass

Activity

- 09/2015 - 12/2015, Internship student

- + Website "Computer Online shop" (Mock project - ĐATN)
- + Use Primeface + JQuery + Mysql + Elastic search
- + Crawl data from website PhucAnh.vn , xây dựng trang bán hàng và quản lý.

- 12/2015 - 3/2016, Developer

- + SARS project
- + Struts + Spring + ExtJS
- + Transform SARS to use Struts + Spring + ExtJS
- + Use DBScan algorithm, Elastic search to cluster company data

- 3/2016 - 4/2016

- + Build Api import name card data from <https://www.sansan.com> (CSV + SanSan api), use Spring batch

- 4/2016 - 8/2016

- + Research android, demo app find location base on 3 beacon
- + Research NodeJs, AngularJs, MongoDB
- + Join project Skillset Management, use MEANJS
- + Use Angular 2 to build prototype for function "Create Daily Report" (SARS)

- 9/2016 - 12/2016

- + Update UI/UX for project MEMS
- + Update UI/UX for project SARS
- + Improve SARS performance

ARROW Technologies Co., LTD

1/2017 - 6/2018

● Team lead

Projects : LPIC

Description: To support for learning and examining LPIC certificate.

Technical: Spring, Hibernate, Docker, NodeJs, Web socket, Mysql, Angular 7, Redis, Web Push, Microservice

Team: 3 - 6 member.

Work:

- Manage and training team
- Collect requirement and break down the work package
- Build core and develop environment
- Develop main function : Web terminal
- Server configuration : WPF, firewall, ip filter, NGINX ...
- Implement CI-CD process (Jenkin + Gitlab)
- Support other team.

ARROW Technologies Co., LTD

7/2018 - 12/2018

● *Team lead*

Projects : SMART SURVEY

Description: to synthesizes data from electronic devices

Technical: Postgres Sql, Spring, Mybatis, Angular 7, Mysql, Docker, Python

Team: 3 - 4 member.

Work:

- Manage and training team
- Build environment
- Break down the work package
- Convert Mysql database to Postges Sql
- Support team.

ARROW Technologies Co., LTD

1/2019 - 6/2019

● *Team lead*

Projects : TRUNK ROOM

Description: warehouse rental management

Technical: Sql Server, Web Form, JQuery

Team: 3 - 4 member.

Work:

- Manage team and review code
- Convert Mysql database to Postges Sql
- Support team.
- Communicate with customers
- Implement CI-CD process (Jenkin + Gitlab)

Projects : TEGAKI OCR

Description: Convert form data (Image, pdf) to text data structure

Technical: Laravel 5 , docker, OpenCV, JQuery

Team: 2 member.

Work:

- Build environment
- Maintenance
- Improve Image Alignment
- Tegaki request features features.
- CSV features.
- Communicate with customers

Social Team

6/2016 - 6/2019

● *Developer*

Project: Social Listening

Customer: Viện Hàn lâm Khoa học và Công nghệ Việt Nam

Description : Collect and analytic data from facebook, forum, article ... to research social problem.

Team: 6 member.

Technical: Ruby on Rail, Hadoop, Spring, Mongo, Mysql, Elastic Search, Vuejs, Nodejs

Work:

- Develop web crawler system (schedule, queue, alert, bot setting ...)
- Develop survey system
- Build web system (Project module, Filter Module, Category ...)
- Research clustering solution.
- Support research Natural Language Processing solution

INTEREST

- Sports
- Travel, exploratory activities.
- Reading
