INTRODUCE

Hello, my name is Hung Vu (Vũ Văn Hùng)

I'm seeking a position of a senior Android developer where I would be able to put to use the knowledge gained in the software development cycle and technical aptitude. I can work on more than one project at once and I can deal with the most important project first and work the rest in later to make sure all deadlines are met. I have a Bachelor's degree in Computer Science and I have a very creative mind that allows me to solve technical problems. Please feel free to contact me if you have any question.

SKILLS

Android

- custom view, lifecycle activity and fragment, constraint layout
- services, map location, multimedia, social networking
- Sqlite, material design, networking
- optimize performance, leak memory
- Kotlin, Android Architecture Components
- architecture: MVP, MVVM, VIPER
- testing: junit, espresso, appium (CI/CD)

Other

- Cross Platform: Flutter, PWA (Angular), Ionic
- Database: MySQL, PostgreSQL.
- Agile Scrum
- Collaborative: Git, Svn.
- Project management tools: Redmine, Trello
- Platforms: Linux, OSX

Soft Skills

- Be able to communicate, read and understand by English
- Good sense of teamwork and high responsibility
- Self-motivated, self-disciplined
- Able to work both independently and as part of a team
- Good understanding of software development processes
