

Applicant for:

Senior/Middle Java Engineer ~2,000\$

Dr.JOY

7 October 2021

tai nguyen viet

✉ viettai0211@gmail.com

Main interests: Java, Spring

What skills, work projects or achievements make you a strong candidate for this position?

I have for year on developer java web. Code spring frame work, spring batch .

Communicate ,Team work, Problem solving skill good.

"The right people are your most important asset." - Jim Collins

PERSONAL DETAILS

- Name: Nguyễn Việt Tài.
- Age: 02/11/1990.
- Address: Kiều Mai – Phúc Diễn – Bắc Từ Liêm – Hà Nội.
- Marital Status: Married.
- Phone number: 0975212119.
- Email: viettai0211@gmail.com.

EDUCATIONAL BACKGROUND

- University: Bách Khoa Aptech Hà Nội.
- Major: Software engineering.
- Graduation month & year: 2014.
- University: Học Viện Bưu Chính Viễn Thông.
- Major: Software engineering.
- Graduation month & year: 2014.

PROFESSIONAL SUMMARY

- Six years+ experience in software development, having knowledge about OOP design, common design patterns
- Six years+ experience in Java.
- Six years+ experience in Spring framework.
- 3 year+ experience in javascript library and framework such as: angular js, ember js
- 6 year+ experience in relational data base design, using RDBMS such as MySQL
- 6 year+ experience in using ORM frameworks: Hibernate, JPA, Mybatis
- 2 year experience caching software: Redis, Memcache
- 3 year experience in NoSQL, caching software: Redis, Memcache
- 3 year+ experience in using messaging: Activemq , kafka
- Be familiar with using java dependencies manager: Maven, Gradle
- Be familiar with using source code management tool: SVN, GIT
- 3 year experience in development of financial
- 1,5 year experience in development backoffice system
- Hard working and high responsibility
- Ability to reading and writing document in English.

WORK EXPERIENCE AND PROJECTS INVOLVED

01/2020 – Now: Java developer at One Mount Group

Position	Java Developer
Organization	One Mount Group

PROJECT LIST:

BACK OFFICE		January 2020 - Now
Position	Java Developer	
Project Description	The BO system was built to fill in the gaps in operation & accounting & settlement of domains in the product development process.
