Excel		
SVN/Git		
Operating Systems		
Win Server		
Linux/Unix		
Programming		
Web Development (HTML, CSS, JQuery, Bootstrap, RiotJS, Angular JS,)		
Java Technologies (Spring boot, Spring MVC, Servlet/JSP, JDBC, Java web, Java core, Terasoluna framework)		
ORM (Hibernate, Mybatis, ..)		
Microsoft Technologies (VB.NET, C#...)		
Blockchain(Hyperledger Fabric)		
NodeJS Technologies (NodeJS, ExpressJS, Koa JS, Typescript,...)		
Other (C++,GO, Docker...)		
Databases		
SQL Server		
Postgresql		
Oracle Server		
MySQL		
Design Tool		
MS Visio		

φProjects

Amlad system		<i>From 11-2018 to now</i>
Position in project	Senior Software Developer	
Technical Environment	Spring boot framework, Spring MVC framework, Spring Security framework, JavaScript, Postgresql DB, Groovy for Unit Test.	
▪ Hardware	Windows 10.	
▪ Software	Eclipse	
Project Description	This project aims to develop a system to manage the news	
▪ Characteristics	Web application.	
▪ Target	Web application.	
▪ Customer		
▪ Scope	Our scope include: - Understanding System Document. - Detail Design Document. - Coding and Unit Test. - Bug fix.	
Blockchain for customs system in Singapore customs/Thailand customs		<i>From 07-2018 to 10-2019</i>
Position in project	Senior Software Developer	
Technical Environment	Spring boot framework, Terasoluna web FW, Terasoluna batch FW, JavaScript, Node js, Koa framework, Express framework, RiotJS framework for client, MongoDB, DynamoDB, Docker, Docker Swarm.	
▪ Hardware	Windows 10.	
▪ Software	Eclipse/Visual Studio Code	
Project Description	This project aims to develop a Trade Platform system to provide utility and interface for bank/insurance and logistic system working with customs system.	
▪ Characteristics	Trade Platform Core, Web application, Business system, Gateway system.	
▪ Target	Trade Platform Core, Web application, Business system, Gateway system.	
▪ Customer		
▪ Scope	Our scope include: - Analysis and design, Business system and Gateway system development - Understanding System Document. - Writing Detail Design Document. - Coding and Unit Test. - Bug fix.	
Vehicle management system for Japan Ministry Of Transport		<i>From 01-2018 to 06-2018</i>
Position in project	Senior Software Developer	
Technical Environment	Java, Java core, Apache camel framework, Oracle, Spring boot framework, Spring MVC framework, Terasoluna java web FW	
▪ Hardware	Linux	

Profile of Duong Van Nhan

▪ Software	Eclipse
Project Description	This project aims to build the screens and utility for registering & maintain vehicles activities between Japan Ministry of Transport and Car Agency / buyer.
▪ Characteristics	DB, Web application
▪ Target	Web application for multi user
▪ Customer	NTT Data headquarter / Japan MOT
▪ Scope	Our scope include: - Understanding Require Document. - Detail Design Document. - Coding and Unit Test. - Bug fix.

Light car management system for Japan Ministry Of Transport

From 10 -2017 to 12-2017

Position in project	Senior Software Developer
Technical Environment	Java, Java core, Apache camel framework, Oracle, Spring MVC, Terasoluna java web FW
▪ Hardware	Linux 7
▪ Software	Eclipse
Project Description	This project aims to build the screens and utility for registering & maintain light vehicles in Japan, combine with old C++ application, Oracle Pro*C
▪ Characteristics	DB, Web application, Window app C++
▪ Target	Web application for multi user
▪ Customer	NTT Data headquarter / Japan MOT
▪ Scope	Our scope include: - Understanding Require Document. - Detail Design Document. - Coding and Unit Test. - Bug fix.

Warning management system

From 04-2017 to 09-2017

Position in project	Software Developer
Technical Environment	Java core, ZK framework, Oracle server
▪ Hardware	Windows 7.
▪ Software	Eclipse
Project Description	Monitor system alerts in Viettel group
▪ Characteristics	Web application
▪ Target	Web application
▪ Customer	Viettel
▪ Scope	Our scope include: - Understanding Old system and change system with new requirement. - Detail Design Document. - Coding and Unit Test. - Bug fix.

MOffice system		From 02-2017 to 04-2017
Position in project	Developer	
Technical Environment	Java, Hibernate, ZK framework, Oracle server	
▪ Hardware	Windows 7	
▪ Software	Eclipse	
Project Description	Document management system in company	
▪ Characteristics	Web application	
▪ Target	Web application	
▪ Customer	Viettel	
▪ Scope	Our scope include: - Understanding Old system and change system with new requirement. - Detail Design Document. - Coding and Unit Test. - Bug fix.	
Bank plus System		From 11-2016 to 01-2017
Position in project	Developer	
Technical Environment	Java, Java core, Hibernate, Struts-2, Oracle Server, web service	
▪ Hardware	Windows 7	
▪ Software	Eclipse	
Project Description	This project aims to develop a system to charge when using bank service via this system.	
▪ Characteristics	Web application, Service system.	
▪ Target	Service System	
▪ Customer	MB bank	
▪ Scope	Our scope includes: - Detail Design Document. - Coding and Unit Test. - Bug fix.	
Expense management System		From 04-2016 to 10-2016
Position in project	Developer	
Technical Environment	Java, Java core, Primefaces framework, High chart, Oracle server, Web service.	
▪ Hardware	Windows 7	
▪ Software	Eclipse	
Project Description	This project aims to develop a system to manage invoice in Mobifone group.	
▪ Characteristics	Web application	
▪ Target	Web applications	
▪ Customer	Mobifone group	
▪ Scope	Implement the following Modules Detail document. Coding, Unit and system test. Bug fix. Maintenance.	

VAS System		From 07-2015 to 03-2016
Position in project	Developer	
Technical Environment	Java, Java core, Java web, JDBC, Oracle Server, web service	
▪ Hardware	Windows 7	
▪ Software	Eclipse	
Project Description	This project aims to develop a system to charge when using service, and develop service websites.	
▪ Characteristics	Web application	
▪ Target	Web application	
▪ Customer	Viettel, Mobifone.	
▪ Scope	Implement the following Modules -Develop Design Document. -Develop Detail Design Document. -Coding, Unit and system Test. -Bug fix. -Maintenance.	
KRM System		From 04-2014 to 06-2015
Position in project	Developer	
Technical Environment	C#, ASP.Net, MS SQL 2008	
▪ Hardware	Windows 7	
▪ Software	Visual Studio 2005	
Project Description	This project aims to develop a system to manage the Gardening business	
▪ Characteristics	Trading, normal application	
▪ Target	Web application, Management application.	
▪ Customer	UK	
▪ Scope	Based on the delivered documents from UK, we suggest scope of VCN will include: -Develop Detail Design Document. -Coding, Unit and Integration Test. -Deploy and bug fix. -Maintenance and customer support.
