CURRICULUM VITAE

PERSONAL DETAILS

- Name   **TRUONG TA HAI ANH**
- Nationality   Vietnamese
- Date of Birth August, 6th 1990
- Sex   Male

EDUCATIONAL BACKGROUND

- 2011 – 2016 B.S of advance programs of mechatronic engineering - Hanoi University of Science and Technology – Vietnam

PROFESSIONAL SUMMARY

- Good English communication (5 years educating by English - 650 TOIEC)
- Good skill JAVA programing language
- Worked with HTML, JAVASCRIPT
- Framework hibernate, Spring MVC, apache click,….
- Good logical thinking
- Good knowledge about mechanic, IT and electronic devices

SOFTWARE

- **Databases etc**: Oracle 8 to 10g, PL/SQL, MS SQL Server, My SQL
- **Programming Languages:** C#, C, JAVA, html, js, css,…
- **Programming Tools:** Visual Studio, Eclipse,…

EXPERIENCE

Koei Tecmo Software Vietnam   4/2016 – 6/2017
Java Developer

Nara JSC   6/2017 – now
Java Developer

1. **Project: WEB DEVELOPMENT**

Project Description:
Working in dev team to maintain web game

Domain: working in backend, frontend

Team size: 9 peoples

Responsibilities:
- Understanding document, tasks
- Working follow tasks
- Coding and unit testing

Technologies Used:
Hardware environment
- Window
Development tools
- Eclipse
- Mysql db management

Programming Language:
- Java, js, html,…

2. **Project: Design system to display data from accelerator circuit, connect to database through Mysql server, using web to display data from DB**

Advisor:

Project Description: design and coding a program to display data from external circuit, save data to Mysql, design a web interface to display data from Database

Domain: design system and program

Responsibilities:
- Analyze the requirement
- Design
- Coding
- Testing

Team size: 1 people

Technologies Used:

Hardware environment
- Window
Development tools
- Eclipse
- Mysql
Programming Language:
- Java, html, js

3. **Project: Design and develop system of deck management.**

Work: Researching of a identified VBA language system, Copying work of this to web app. Manage deck system, users, customer, material.

Team: 1 people
Responsibility: Design system from database to web layout. Research features and code.

Technology:
- Programming Language: JAVA, html, css, js
- Database: Mysql

Development tools
- Eclipse
- Mysql db management

Other experiences and abilities:
- Work microcontroller in some small projects
- Good understanding code
- Write some small program in C#
