OBJECTIVE

I'm a mobile developer with more than one year of experience in mobile development, with knowledge of Object-oriented programming, data structures and algorithms, design patterns. I'm considered a team-player because I like to help others and tend to work well within the group. I love programming and it is very hard to learn new technology.

I would like to work as an android developer in an organization where I can utilize my skills and knowledge related to mobile development and develop robust applications.
