EDUCATION

Chu Van An Hanoi High School

2007 - 2010

● *Student of the math-gifted class, ChuVanAn high school, Hanoi, Vietnam*

Math

Hanoi University of Science Techology

2010 - 2016

● *Computer Engineering at Hanoi University of Science and Technology or HUST , Hanoi, Vietnam.*

PMA VietNam

3/2019 - 6/2019

● *PMP® Exam Preparation Course*

Hanoi University of Science Techology

8/2019 - now

● *Masters at Hanoi University of Science and Technology or HUST , Hanoi, Vietnam.*

Computer networks and Information security

CAREER OBJECTIVE

Continually improve my skills and knowledge.

ABILITIES

- Good communication skill, be enthusiastic, careful.
- Ability to study fast research
- Experience in Linux, Mac OS X
- Be familiar with Git, Scrum Agile
- Language: Java, Python, NodeJs, AngularJs, Angular7, VueJs

WORK EXPERIENCE

FPT SOFTWARE

09/2014 - 12/2014

● *Internship student - Team lead (5 member)*

Reseach
 - Spring MVC, Hibernate, JSP, Servlet ...
Certificate
 - Global Java Developer FPT Software
 - Scholarship for best student

ARROW Technologies Co., LTD

09/2015 - 12/2016

● *Developer*

Reseach
- JSF, Primeface, Struts + Spring +ExtJS, Spring batch
- DBscan, Singerton Pattern, Dependency Injection Pattern, Factory Pattern
- Elastic search, MongoDB, Postgres
- Nodejs, Angular 1, Angular 2, MEANJS, JQuery, CSS, Sass

Activity
- **09/2015 - 12/2015**, *Internship student - (Mock project - Graduation thesis: Website "Computer Online shop")*
  + Use Primeface +Jquery + Mysql + Elastic search
  + Crawl data from website PhucAnh.vn

- **12/2015 - 3/2016**, Developer
  + SARS project
  + Research Struts + Spring +ExtJS
  + Clustering company data with DBScan, K-mean algorithm, Elastic search

- **3/2016 - 4/2016**
  + Build Api import name card data from https://www.sansan.com (CSV + SanSan api), use Spring batch

- **4/2016 - 8/2016**
  + Research Android, demo app find location based on 3 beacons(BLE)
  + Research NodeJs, AngularJs, MongoDB
  + Join Skillset Management project, use MEANJS
  + Use Angular 2 to build prototype for function "Create Daily Report" (SARS)

- **9/2016 - 12/2016**
  + Update UI/UX for MEMS project
  + Update UI/UX for SARS project
  + Improve SARS performance

ARROW Technologies Co., LTD

1/2017 - 6/2018

● *Team lead*

Projects : LPIC
Description: Providing a virtualization environment for Linux operating system for Lpic exam preparation
Technical: Spring Boot, Hibernate, Docker, NodeJs, Web socket, Mysql, Angular 7, Redis, Web Push, Microservice
Team: 3 - 6 member.
Work:
- Manage and train team
- Collect requirement and break down the work package
- Build core and develop environment
- Develop main functions : Web terminal

- Server configuration : WPF, firewall, ip filter, NGINX ...
- Implement CI-CD process (Jenkin + Gitlab)
- Support other team.

ARROW Technologies Co., LTD
7/2018 - 12/2018

Team lead

Projects : SMART SURVEY
Description: to synthesizes data from electronic devices
Technical: Postgres Sql, Spring, Mybatis, Angular 7,Mysql, Docker, Python
Team: 3 - 4 member.
Work:
  - Manage and training team
  - Build environment
  - Break down the work package
  - Convert Mysql database to Postges Sql
  - Support team.

ARROW Technologies Co., LTD
1/2019 - 6/2019

Team lead

Projects : TRUNK ROOM
Description: warehouse rental management
Technical: Sql Server, Web Form, Jquery
Team: 3 - 4 member.
Work:
  - Manage team and review code
  - Convert Mysql database to Postges Sql
  - Support team.
  - Communicate with customers
  - Implement CI-CD process (Jenkin + Gitlab)

Projects : TEGAKI OCR
Description: Convert form data (Image, pdf) to text data structure
Technical: Laravel 5 , Docker, OpenCV, Jquery
Team: 2 member.
Work:
  - Maintenance Project: improve performance all function
  - Update Tegaki request management.
  - Update CSV Template management .
  - Communicate with customers

ARROW Technologies Co., LTD
7/2019 - Now

Team Lead - Manage 3 Projects And Train 4 Interns

Project: SARS
Description : Solving the Human Resources problem for the parent

company
Team: 1 QA, 5 Developers, 2 Interns
Technical: Spring boot, Vuejs, Gitlab CI,Tomcat, Jira, Postgresql, FCM,
Socket IO, Nodejs, Flutter
Work:
 - Convert the old architecture to the new architecture using Spring boot Vuejs, support team and solutions
 - Develop and update git processes and workflows
 - Breaking requirements into stories, tasks ...
 - Plan task for the team
 - Make working time report, performance report, progress report by week
 - Implement difficult tasks and review source code

Project: Drone
Description : Build an app window to monitor the status of solar panel fields via drone orthophoto
Team: 2 developers, 1 intern
Technical: OpenCV, Python, Jira
Work: General management, solution consulting(detection and classification)

Project: QCD
Description : Tool export report from JIRA to manage Quality, Cost and Delivery and improve team performance
Team: 2 developers, 1 intern
Technical: Jira API, NodeJs, Vuejs, Trello
Work:
- Communitication and decomposition reporting requests from the parent company
- Plan task for the team
- Review source code

INTEREST

- Sports
- Travel, exploratory activities.
- Reading
