About

Experienced Java Software Engineer with a demonstrated history of working in Warehouse, DC and Supply chain industry. Strong engineering professional with a Bachelor's degree focused in Software Engineering/Information System from FPT University.

Experience

Software Engineer at LINE Technology Vietnam

Nov/2020 – now   (5 months)

Working with role Java Software Engineer in Backend team, joining in design and develop some applications that is using by thousands user in Japan.

When working here, it gives me the first chance to really working with Spring Boot – the popular Java framework.

Software Engineer at Fortna Vietnam LLC

Jan/2019 – Oct/2020   (1 year 7 months)

Working with role Software Engineer in Software Architect team, joining in design for almost products.

Developing high concurrent framework for our all software products.

Design and develop log solution for distribution applications (in-house services).

Developing a framework to work with warehouse hardware.

Experiences on working with warehouse hardware such as: Consolidation sorter, OTTO robot, Auto Store…

Junior Software Engineer at Fortna Vietnam LLC

Oct/2017 – Dec/2018   (1 year 3 months)

Working with role Junior Software Engineer in Software Architect team. Learning overall about Warehouse domain and Supply chain industry. Focus on base knowledge and coding skill.

Education

FPT University

Sep/2013 - Aug/2017   (4 years)

Bachelor's degree at Software Engineering/Information System.

Accomplishment

FPT University

Get 50% scholarship for all.

Oracle certificate

Oracle Certified Associate, Java SE 8 Programmer.

LinkedIn learning certificate

Software Architecture Foundations.

Database Foundations: Core concept.

Oracle Database 12c: Basic & Advance SQL.

Parallel and concurrent programming with Java I and II. Java memory management.

Query tuning and Performance optimization with Postgres.

Skill

Main: Strong knowledge and programming in Java SE.

Other: C#, HTML/CSS, JavaScript, Shell Script.

Relation database: Oracle, SQL Server, PostgresQL, MySQL.

Non-relation database: Redis, Hazelcast, Aerospike, JanusGraph.

DevOps: Docker, Jenkins, GoCD, Fluentd, Fluentbit, Minio, ELK, EFK…

Experience in: Akka, Vert.x, Spring Boot, Thymeleaf, Elasticsearch, Disruptor, Etcd, Hibernate, ActiveMQ, Goose.

Experience and knowledge about software design architecture with: Microservice, Actor model, Message/Event driven, Distribution system and software design pattern based on each architecture.
