## WORK EXPERIENCE

**CMC Global**                                                              9/2020 - Current
*Software developer*

I worked with these technologies during my time at CMC Global:
- Python (Django, Core).
- C# (.Net)
- VueJS
- HTML/CSS
- MySQL
- Git
- Docker
I am also one of the main communicators with English-speaking clients for the team.

**Freelancer**                                                              1/2015 - 9/2020
*Software developer*

Worked on projects and tasks from online clients. During this period I have worked with:
- Python (core and Django).
- C# (Core, .Net)
- Java
- PHP (Core, Laravel)
- Javascript (VueJS, jQuery)
- HTML/CSS
- MySQL
- Git
- Wordpress

**VietIS**                                                                  5/2018 - 5/2019
*Programming Intern*

Worked as a Python and PHP developer for the company's project and website during the internship.

**Donuts Vietnam**                                                          3/2016 - 1/2017
*Programming Intern*

Worked as a PHP developer for the company's project and website during the internship.
