Summary

As a person with an interest in the basics and the foundation. I have always cited a special interest in software products, because I believe in those projects that its success will come from the foundation. Certainly, I aspire to build successful software. But first, I need to have a financial guarantee for my family.

Experience

SG Fintech JSC.
Software Engineer
June 2019 - Present (2 years 6 months)
66 Phó Đức Chính

I took responsibility for "technology transfer" from Niwodai Corporation in China. I build the callback|return apis for them to post data into our system.
I provide solutions to maintain and integrate 3rd services like Fibo SMS, Epay Payment, BaoKim, Ngan Luong, Dinstart Gateway.
I build mobile-web app for company run sale while transfer mobile task is pending. I choose React, and Ant Design as the built-in components for mobile-web app.
I also operate works in the in-house company, and write tools to support anothers team like: Export Excel Tool for Accounting, Generating PDF Tool for Contract, Crawler Data Tool, and Visualize Tool.
