Company : NTQ Solution JSC Company **Position & Job Description** : **Developer, Team Lead** ▪ Developer: Code, test, analyze requirement ▪ Team Lead : review sources code, task division for members, research and execute core code	10/2018 - 1/2020

PROJECT INVOLVED		
No	**Projects**	**Description**
1	**JVIDEOS**	**Streaming Video and System management**
	Project Position	Developer, team lead
	Tasks	Code Backend
	Team size	14
	Project Description	A system to stream video like pornhub, user and video management
	Customer	
	Project Target	Response for million users, reliable
	Year	
	Project size	120 Man Month
	No. Engineers involved	
	Technical Environment	Java, js
	Technology solutions	Jhipster, Spring Boot, reactjs, nginx
	Application model	Microservices
	Database	Postgresql
	Programming/development tools	Intelliji

PROJECT INVOLVED		
No	**Projects**	**Description**
1	**SOLUTIO**	**Payroll Solution for UK market**
	Project Position	Senior Developer, team lead
	Tasks	Backend, Frontend, review code, give solution

PROJECT INVOLVED		
No	**Projects**	**Description**
	Team size	10
	Customer	Philipines
	Project Target	A payroll solution in UK market for umbrella company
	Year	2019
	Project size	
	No. Engineers involved	10
	Technical Environment	Java, angularjs
	Technology solutions	Spring boot, redis, rabbitMQ, docker
	Application model	Microservices
	Database	mongodb
	Programming/development tools	Intelliji
2	**Smartup**	Website for online Education Course
	Project Position	Developer, team lead
	Tasks	Backend, review code
	Team size	2
	Project Description	Website for Education Course like coursera
	Customer	Singapore
	Project Target	
	Year	2020
	Project size	
	No. Engineers involved	2
	Technical Environment	Java, reactjs
	Technology solutions	Spring boot, consul, docker, aws, redis
	Application model	Microservices
	Database	Mysql, Postgres, Redshift
	Programming/development tools	Intelliji

PLOYMENT HISTORY & WORK EXPERIENCES:	
Company/Position/Job Description	**Year**
Company : **Ascend** Corporation **Position & Job Description** : **Senior Developer** ▪ Developer: Code, test, analyze requirement	1/2020-Now

PROJECT INVOLVED		
No	**Projects**	**Description**
1	**Equator**	**Payroll Solution for UK market**
	Project Position	Senior Developer
	Tasks	Backend, Frontend, review code, give solution
	Team size	70
	Customer	ThaiLand
	Project Target	Core system of money transaction
	Year	
	Project size	
	No. Engineers involved	70
	Technical Environment	Java, reactjs
	Technology solutions	Spring boot, redis, spring cloud
	Application model	Microservices
	Database	Mysql
	Programming/development tools	Intelliji
