Curriculum Vitae

General Information:

- Full name: Vũ Thanh Tùng

- Date of birth: 17/03/1989

- Gender: Male

- Location: An Khanh – Hoai Duc – Ha Noi

- Email: **N/A**

- Phone number: **N/A**

Skill summary:

- Able to working on various Operator System such as Linux & Window.
- Able to working with springboot framework and its ecosystem.
- Able to working independent and teamwork.
- Reading technical documents.

Education background:

- 2007 - 2012: I studied at Hanoi University of Industry. The major is Computer Science

Working experience:

➢ 04/2018 ➔ now

Company	M-Mobile
Project	Vinalucky,m-sport,ivr,gamedata
Description	- Connect to Telco (Viettel,Vinaphone) to get data (using SOAP webservices, API,FTP). - Send data to JMS (RabbitMQ). - Other processes listen queue messages and process data (insert,update to database (MySQL or Oracle) and send SMS to user). - Build APIs sync data to partners, jobs execute tasks

	automatically on schedule,send warning messages to Telegram when errors occur,send summary reports by email on schedule ... - Build WAPs and management websites (backend using Javaspringboot,front-end : html,css,angularjs). - Maintain database (indexing,partitioning tables ,optimize slow query ...).
Team size	1 developers and 3 Testers.
Role	java developer
Responsibility	- Build and develop new projects. - Read old source code and doing impact analysis,develop new modules. - Support Production issues. - Support other members.
Technology Stack	Spring boot, Spring security, Mysql,Oracle, maven, SOAP,RabbitMQ,javascript,angularjs,html,css

➢ 05/2016 → 11/2018

Company	OrientedSoft
Project	VEdu, device management
Description	- Build and develop new projects. - Develop new modules and maintain old projects of company.
Team size	1 PM, 4 developers and 2 Testers.
Role	.NET developer
Responsibility	- Read old source code and doing impact analysis. - Support Production issue. - Support other members.
Technology Stack	.NET Entity Framework, SQL server, javascript,angularjs,html,css

➢ 04/2015 → 05/2016

Company	Datacloud
Project	HRM
Description	Web application for Human Resource Management
Team size	1 PM, 4 developers and 2 Testers.
Role	.NET developer
Responsibility	- Develop new modules
Technology Stack	ASP.NET,SQL server, javascript ,html,css

Interest:
- I'm interested in java technology open source stuff and new technologies in computer science.
- I'm interested in watching films,football
