- Travelling

Recent Project

Project	Retail/ Commercial Loan Origination System
	(Vietinbank, Sacombank, BIDV, OCBC Bank, RHB Bank, TMB Bank)

Description	• SmartLender Commercial Loan Origination System (CLOS) is a workflow-driven web-based platform and tightly integrated single point of credit assessment, which allows banks and retail/commercial lenders to streamline and holistically improve their standard underwriting process
	  - for all commercial loan segments, including Large Corporates (LC), Commercial and industrial (C&I), and small and medium-sized enterprises (SME).
	  - for all retail loan products, both secured and unsecured, namely, credit cards, mortgages, hire purchase, personal loans and unsecured loans.

Role	• Team leader
Responsibility	• Planning, Manage Team • Analysis, Code
Technology	• Spring • JPA, Hibernate • SOAP, Rest API • IBM MQSeries • BPM • Redis • Oracle

Project	Business Process Management System
Description	• Allows user to search, read all processes of the Viettel Group; each user can know which processes he / she is involved in, how specific workflows are performed. In addition, the system is linked to the ERP system of the Viettel Group to monitor the implementation process, KPI evaluation ...
Role	• Project Manager
Responsibility	• Planning, Manage Team • Analysis, Design, Code, Deploying
Technology	• Spring • AngularJS • JPA, Hibernate • Rest API • Elasticsearch

	• Oracle
Project	**Quality of Service**
Description	• Collecting and analyzing quantitative norms of IP network by online or period. • Managing, monitoring and exporting report. • Computerization in management and store service data.
Role	• Project Manager
Responsibility	• Planning, Manage team • Analysis, Design
Technology	• Struts • Hibernate • SOAP • Kafka • Oracle

Project	**VOffice**
Description	It's a important project of Viettel. Including 3 big modules: • Document Management (submit, sign, approve, promulgate document) • Meeting Management (schedule, approve meeting, warning meeting) • Task Management
Role	• Developer
Responsibility	• Coding, Deploying
Technology	• ZK framework • JPA, Hibernate • Apache Solr • SOAP • Oracle
